Composer

and more...

About **SAF Tehnika**

- 25 years in business, listed on NASDAQ / Riga Stock Exchange
- Ability to provide customized solutions based on clients needs
- Manufacturing in the European Union, ISO 9001 Certified
- Products sold in more than 130 countries
- Over 33M EUR In revenue
- OWN R&D and Factory
- 250 Employees
- Profitable

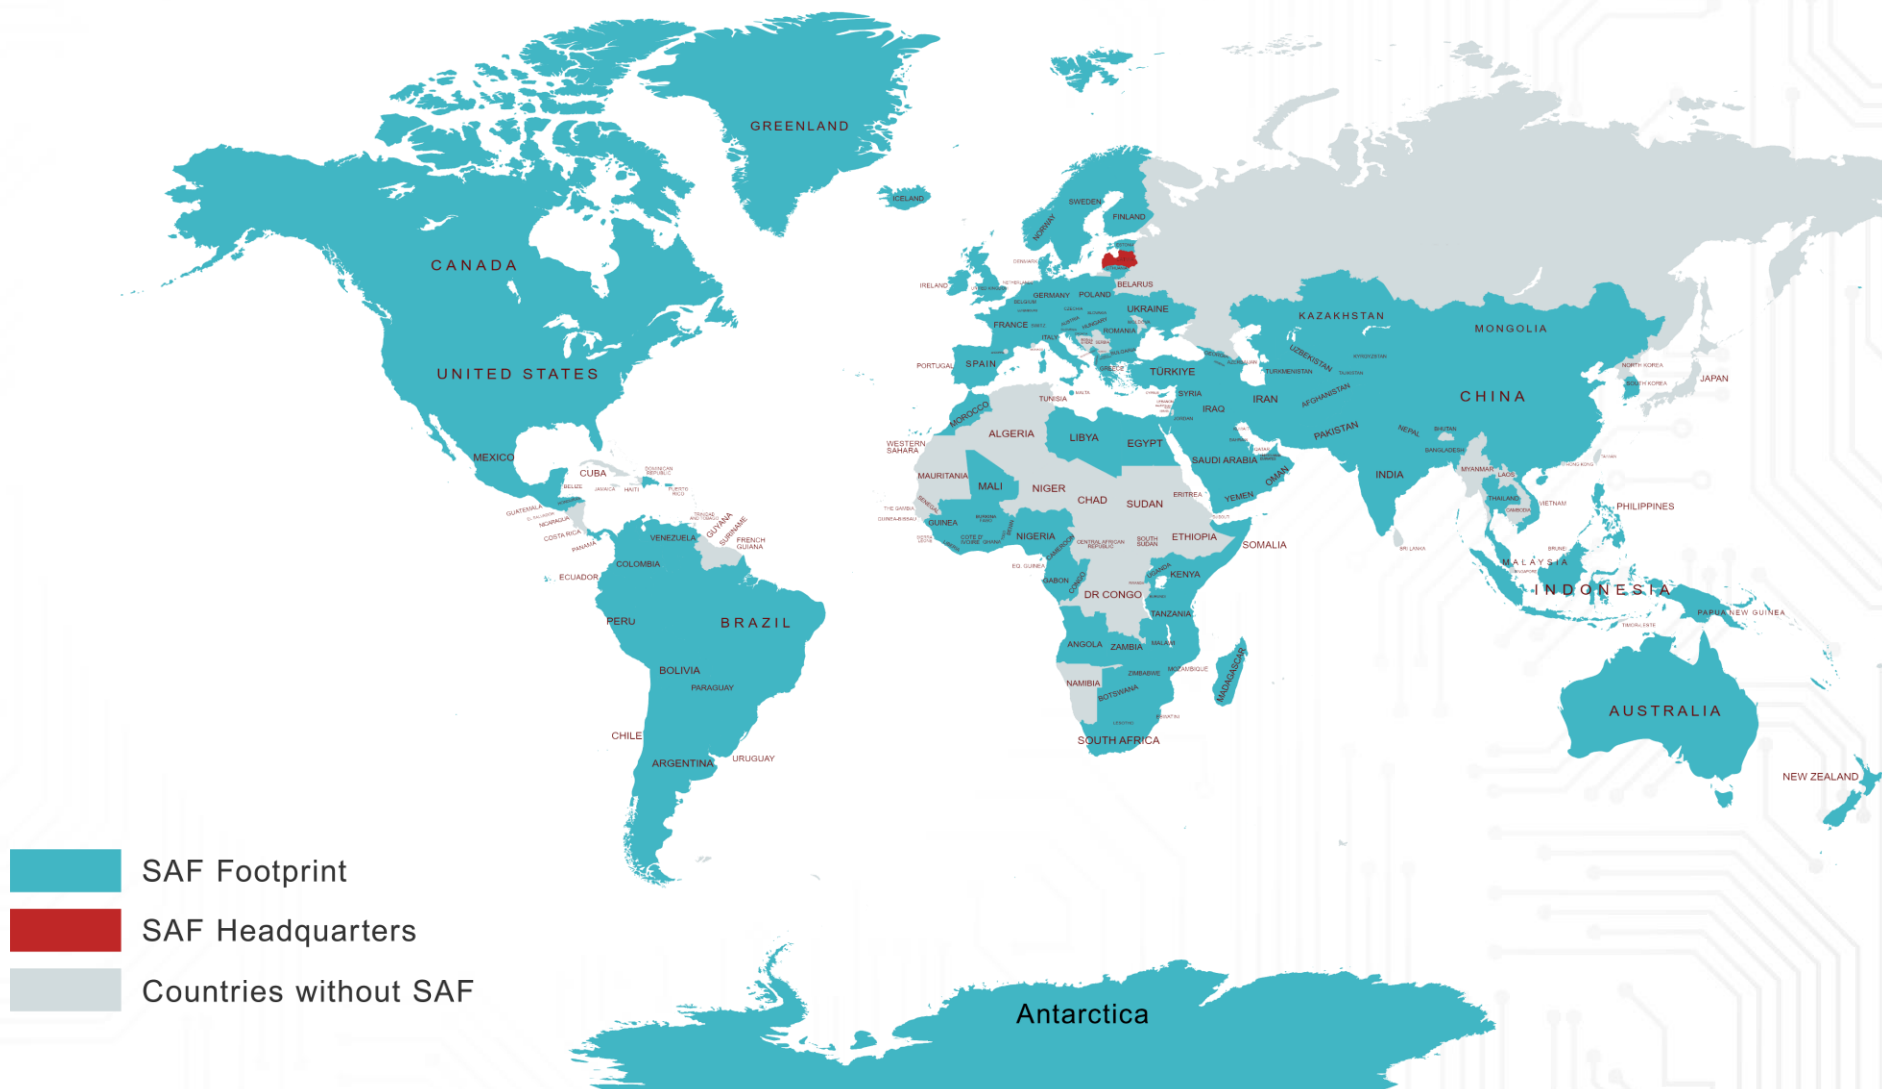

SAF Global footprint (130 Countries)

HQ, R&D and Factory
Riga, Latvia, EU

North America Office:
Aurora, CO, USA

Asia Office:
Singapore, SEA

Mission & Values

SAF Tehnika provides wireless products that connect people, companies and communities to critical information, making the execution of daily activities convenient and safer for all.

✓ **We keep our promises**

✓ **We adapt**

✓ **We keep things simple**

✓ **We are competent**

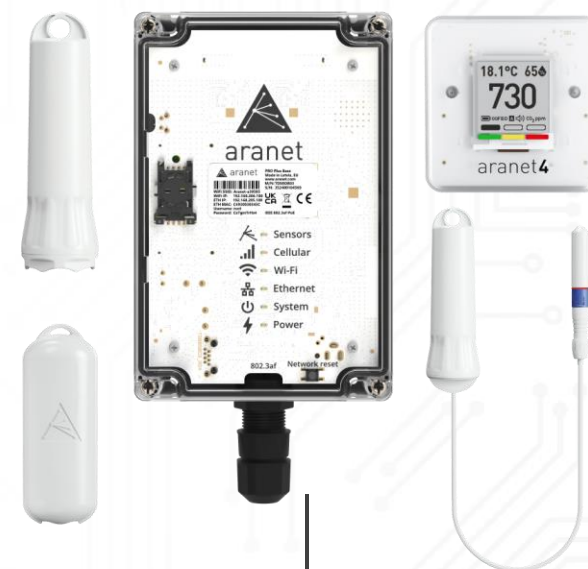

Product Groups

**Point – to – Point
Radios**

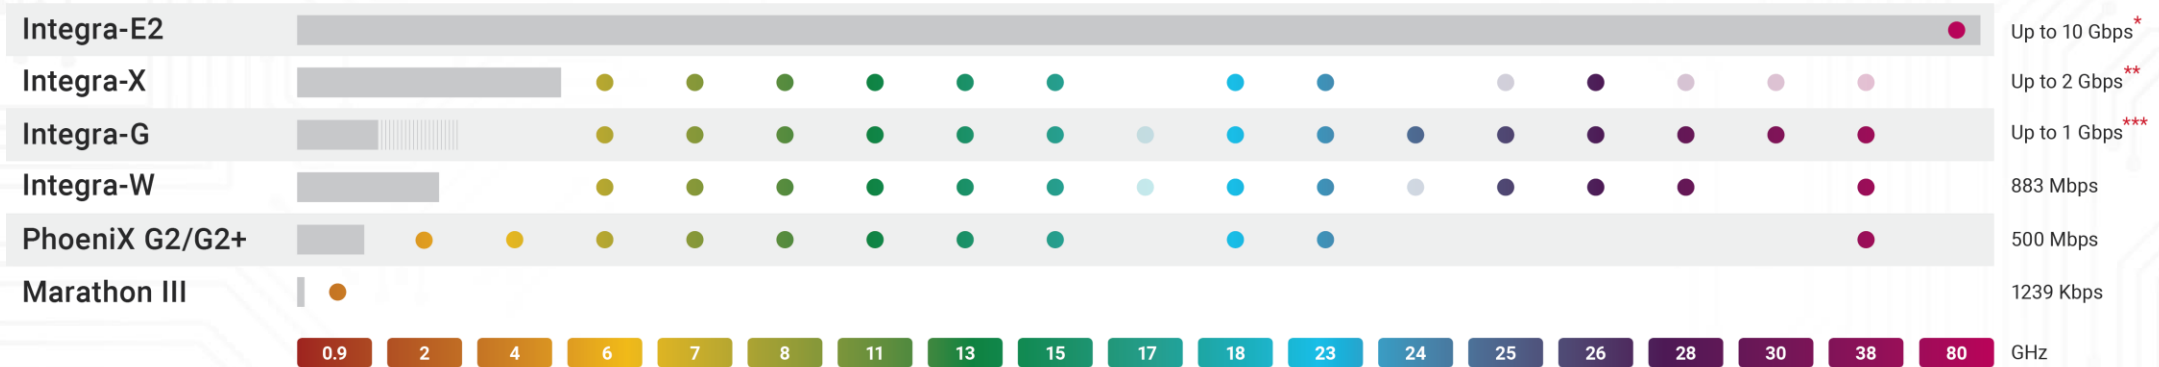

**Test and
Measurement**

**Aranet (IoT)
Internet Of Things**

Microwave P2P Radios

Radio Product Overview

All mentioned Ethernet capacities are in 1+0 configuration full-duplex. The capacity is multiplied by number of radios in 2+0 / 3+0 / 4+0 configurations
 * at 2000MHz 128QAM ** at 2x 112 MHz 4096QAM *** 491 Mbps without Header compression

■ Phoenix series:

- split-mount or all-indoor
- modular design

■ Integra series:

- all-outdoor
- multi-gigabit

■ Marathon series:

- all-in-one indoor
- narrow band

Main markets / Applications

- **TV Broadcast in USA**
- **Wireless Internet Service Providers**
- **Military and Public Safety**
- **Ultra Low Latency radio systems for (HFT's)**
- **Oil and Gas customers**

Spectrum Analyzers and Signal Generators

Spectrum Compact Series

Series of world's first truly hand-held microwave spectrum analyzers and signal generators for field engineers

- Save scans for reporting and analysis
- Firmware updates and PC software
- Quick interference detection
- Easy RF troubleshooting
- No hidden costs
- 8 GB memory

Spectrum Coverage

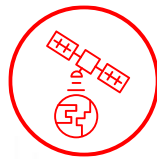

SC RANGE (GHz)	0.01-3	2-8	5.95-20	17-24.3	24-43	56-71	70-87
SG RANGE (GHz)			5.95-12	10-18	17-24.3	24-40	

Industries & Solutions

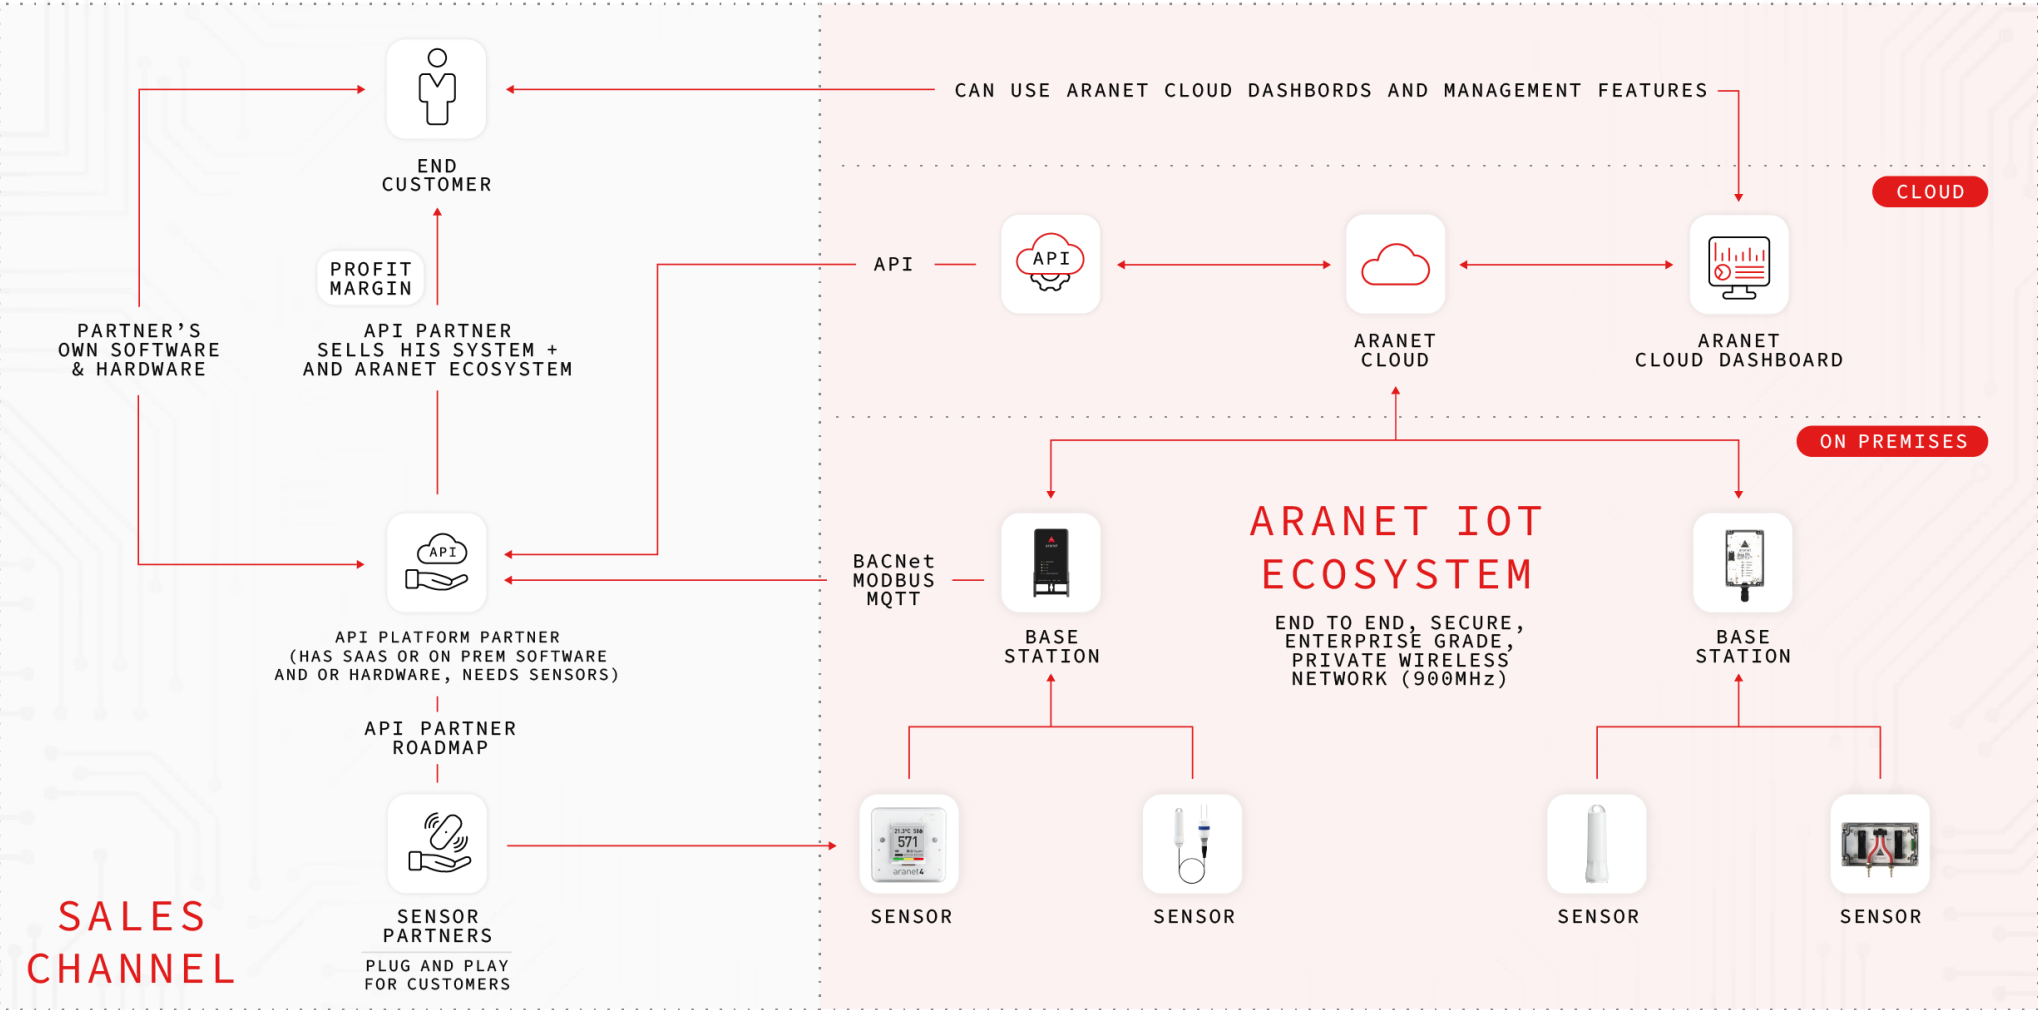

- 5g
- Telecoms
- Distributed antenna systems (DAS)
- Defence & Aerospace
- Drones
- Indoor signal mapping
- Regulatory
- Satellite communications
- Line-of-sight verification

SAF Aranet (IoT) Internet Of Things

Aranet IoT Ecosystem

Main markets / Applications

- **Indoor Air Quality** – Aranet4 is most popular portable CO2 monitor in the world, we have sold over 100 000 units. We are working with major HVAC companies to integrate our platform with their products.
- **Greenhouses** – we are working with different Software, Climate Control and Automation companies and integrating our platform with their products.
- **Livestock** - we are working with different Software, Climate Control and Automation companies and integrating our platform with their products. |
- **Food safety/ Retail** - we are working with different Software, Climate Control and Automation companies and integrating our platform with their products.
