Overview

SAF Tehnika is one of only few companies in microwave data transmission industry that has managed to stay profitable and maintain and increase its business share for more than 15 years.

The business environment has been extremely competitive for the past years and most likely will stay the same in the foreseeable future. It is becoming more and more obvious that there is room for only a few solution providers on the market. The competition will get even tighter until some of the brands will be forced out of the business.

In this business there is no room for companies with weak portfolio, average product quality, questionable reputation or long-term price-dumping business strategy.

On the other hand, the prices are always a little bit higher for those who really invest into innovation and superior quality. But these tend to be predictable one-time expenses that usually turn out to be lower in the long-term.

And that is where SAF Tehnika really stands out! We have been in the market since 1999 and over those decades SAF has expanded its global reach within more than 130 countries all over the globe. While most of the competition struggles to keep their business afloat, SAF Tehnika has been steadily expanding. Being European company, we now have our network of offices, partners and representatives in the Northern and Southern America, Europe, Asia, Africa and Australia. Our business is based on personal relations with customers and ability to provide customized solutions depending on client's needs and expectations.

Company's product portfolio covers most licenced and licence-free frequency bands within the range of 300MHz-42GHz with capacities up to 1Gigabit full-duplex. SAF Tehnika has also created the world's first handheld spectrum analyzer, Spectrum Compact and industry-unique microwave signal generator SG Compact.

SAF Tehnika is committed toward providing strong focus on both the production and delivery of customer-adapted wireless solutions at a competitive price while delivering the highest quality standards.

We have heavily invested in innovation, creating many industry-shaping products and solutions. For example, SAF developed the world's first full-outdoor unit (FODU) back in 2003; one of the world's first hybrid IP/TDM full-outdoor system in 2008 (SAF CFIP series); world's first pocket-sized microwave spectrum analyzer in 2013 (Spectrum Compact); Antenna + radio combination within our next generation microwave radio platform Integra in 2013; and finally we have developed one of the world's first microwave signal generators (SG Compact). All of SAF products correspond to the highest industry's quality standards and have the lowest product failure-rates among competitors.

Our customers value our individual approach and the exceptional technical support that is ready to assist in any problem solving 24/7.

Mobile and alternative operators, PPT/fixed operators, broadband access providers, ISPs, government, utility companies and many others across the world are already working with SAF Tehnika – the supplier of reliable and energy-efficient products, ensuring unparalleled delivery terms and worldwide warranty service, as well as extremely effective and direct

management-level communication. Broad expertise for a fair price is our proposal for time & money –sensitive customers who value investments in high class service and sustainable solutions to benefit from the emerging age of green and smart economies.

SAF's team of direct sales representatives in Europe, North and South America, Africa, South and East Asia, together with a broad worldwide network of authorized partners are always ready to assist and provide up-to-date information on the available product options and solutions. Visit www.saftehnika.com to learn more about our products and reach the headquarters directly to join the ever-growing number of satisfied SAF customers.

And finally, SAF Tehnika shares are being traded in NASDAQ OMX Riga stock exchange so that our customers and business partners always can be aware of what's going on and be able to keep track on our financial results.

SAF Mission

We deliver customized microwave radio equipment designed and produced in Europe.

SAF Vision

SAF is the first choice of the customer looking for a specific microwave solution at a competitive price and good quality.

Key Company Milestones

Company foundation (10 employees)

- **2000** Introduction of PDH (CFM) product line
- **2003** ISO 9001 certification
- **2004** Acquisition of Viking Microwave AB, Sweden – SAF Tehnika Sweden AB foundation IPO - Initial Public Offering
- **2006** SDH (CFQ) product line launch in the market. Number of SAF Tehnika employees reaches 160
- **2007** Implementation of a new automated modern manufacturing line
- **2008** Introduction of CFIP product line – CFIP-108 Mbps FODU. Buy-out of the capital shares of SAF Tehnika Sweden AB by its management
- **2009** SAF Tehnika 10 year anniversary
Release of CFIP Lumina Full Outdoor radio (366Mbps)
CFIP Phoenix Hybrid Split Mount System (366Mbps) launch
- **2010** Release of license-free SAF FreeMile radio
- **2011** Launch of first long-haul microwave system for industrial applications - CFIP Marathon Introduction of CFIP Phoenix Modular Split Mount System for Telecoms
- **2012** – CFIP Low Latency Active Repeater – highly competitive 6GHz+ 35ns radio unit for use in low latency networks.
- **2013** – Launch of Spectrum Compact – world's first hand-held powerful RF spectrum monitoring tool.
Launch of Integra - unique next generation full outdoor radio.
- **2014** Release of a new Integra series radios (Integra-W; Integra S; Integra SV); Launch of microwave signal generator - SG Compact
- **2015** Release of the Integra 11GHz CFIP Phoenix VHP radio and first Outdoor Branching Unit

Management Board

Normunds Bergs

CEO

Owns 289 377 shares (9,74%)

Normunds Bergs, born in 1963, is Chairman of the Board and Chief Executive Officer of SAF Tehnika. N. Bergs is one of the founders of Fortech (co-founding company of SAF Tehnika) where during the periods from 1990 to 1992 and 1999 to 2000 he acted as Managing Director and General Director, respectively. Following Fortech's merger with Microlink in 2000, and establishment of SAF Tehnika, N. Bergs became CEO of SAF Tehnika and a Member of the Management Board of Microlink. From 1992 to 1999 N. Bergs worked at World Trade Center Riga, where he held the position of General Director and became a Member of the Board of Directors in 1998. He is a long-term president of Latvian Electrical Engineering and Electronics Industry Association. N. Bergs graduated Riga Technical University in 1986 with a degree in radio engineering.

Didzis Liepkalns **CTO, Member of the Board**

Owns 506 460 shares (17,5%)

Didzis Liepkalns, born in 1962, is Member of the Board and CTO of SAF Tehnika. D. Liepkalns founded a private enterprise SAF in 1995 and co-founded the company SAF Tehnika in 1999. From 1985 to 1990 he worked as an engineer at the Institute of Electronic Engineering and Computer Sciences. D. Liepkalns graduated Riga Technical University in 1985 with a degree in radio engineering.

Zane Jozepa

CFO, Member of the Board

Owns 0 shares

Zane Jozepa (born in 1982) is Member of the Board and Chief Financial Officer. Prior to her employment with SAF Tehnika, Zane Jozepa has been working in the leading IT and telecommunication services provider in Latvia – SIA Lattelecom, which is a subsidiary company of SIA Citrus Solutions that provides design, construction and maintenance of the engineering and technical systems and infrastructure. Zane has been working as a Business Controller for the first two years. She became Head of Finance in 2008, and a Board Member in 2012. Zane gained her professional experience in finance while working for SIA Coca Cola HBC Latvia during 2001-2006. Zane Jozepa has graduated the BA School of Business and Finance (Banku Augstskola) and has a BA degree in finance management.

Jānis Bergs

Vice President of Sales and Marketing, Member of the Board

Owns 0 shares

Jānis Bergs (born in 1970) is Member of the Board, Vice President of Sales and Marketing, and the President of "SAF North America". From 2000 till 2006 Jānis was a member of the board and later CEO of AS Microlink. When Microlink was sold to the TeliaSonera group in 2006, Jānis became a shareholder and CEO of SIA "FMS", where he worked until January 2015. Jānis Bergs was a Member of AS SAF Tehnika Council from November 2006 till August 2010, and for more than 10 years he has been managing the Latvian IT and Telecommunications Association (LIKTA) and the ICT cluster, as well as giving lectures in business studies in Riga Business School. Jānis Bergs has graduated Riga Technical University as radio engineer and has an MBA degree from Riga Business School.

Council

Vents Lacars

Chairman of Council

Owns 180 546 shares (6.08%)

Vents Lacars, born in 1968, is Chairman of the Council and Vice-President Business Development of SAF Tehnika. Before co-founding the Company, from 1992 to 1999, he worked for LTD Fortech, where throughout his career he held positions of programmer, lead programmer, manager and project manager in the networking department. From 1990 to 1992 V. Lacars worked as a programmer at state electric utility company Latvenergo. V. Lacars has studied in Faculty of Physics and Mathematics, University of Latvia.

Juris Ziema

Vice-Chairman of Council

Owns 258 762 shares (8.71%)

Juris Ziema, born in 1964, co-founder of the Company, is Vice-Chairman of the Council and Production Department Director. From 1998 to 1999 he worked as an engineer at Didzis Liepkalns' private enterprise SAF. From 1987 to 1999 J.Ziema worked as an engineer at the Institute of Electronic Engineering and Computer Sciences. J.Ziema has graduated Riga Technical University with a degree in radio engineering in 1987.

Andrejs Grisans

Member of the Council

Owns 297 888 shares (10.03%)

Andrejs Grisans, born in 1957, is Member of the Council and Production Department Manager. A.Grisans has 20 years of experience in electronics and is one of the co-founders of SAF Tehnika. Prior to joining the Company, he owned and managed a private company specializing in electronic equipment engineering, production and distribution. From 1992 to 1999 A.Grisans was involved in entrepreneurial activities in the field of radio engineering. He worked as an engineer-constructor at the Institute of Polymer Mechanics from 1984 to 1992 and in the constructing bureau Orbita from 1980 to 1984. A.Grisans has graduated Riga Technical University with a degree in radio engineering in 1980.

Ivars Senbergs

Member of Council

Owns 2 shares (0%)

Ivars Senbergs born in 1962, Member of the Council, also Chairman of the Board of SIA Juridiskais Audits, SIA Namipasumu parvalde, SIA Synergy Consulting, SIA Dzirnavu centrs, SIA IŠMU, SIA "RK Konsultācijas" and Member of the Council of AS MFS bookkeeping. From 1999 until 2000 he worked as Finance and Administrative Director at SIA Fortech. I. Senbergs has graduated Faculty of Law, University of Latvia in 1986.

Aivis Olšteins

Member of Council

Owns 0 shares (0%)

Aivis Olšteins, born in 1968. A.Olšteins has 20 years of experience in telecommunications. Since April 2015, Aivis Olšteins is the head and co-owner of "Cliff IT Solutions" (Spain). From 2000 till 2015 he was Head of "DataTechLabs". From 1992 till 1999 he worked in Baltcom TV, initially as a system engineer in Cable TV operations department, from 1994 till June 1996 as a CTO, but from July 1996 till the end of 1999 as technical advisor to General Manager. A. Olšteins is studying in University of Latvia in Faculty of Physics and Mathematics, bachelor of Physics program.

Management Report

Line of business

A/S "SAF Tehnika" and its subsidiaries (hereinafter referred to as the Group) is a developer, manufacturer and distributor of digital microwave communication equipment. The Group provides end-to-end and cost-effective wireless broadband connection solutions for digital voice and data transmission to fixed and mobile operators and data service providers both in the public and private sectors as an alternative to cable networks.

In the financial year (FY) 2015/2016, the Group's net turnover was 13.71 million EUR, which is EUR 854 thousand or 6.6% more as compared to the previous FY 2014/2015. The net turnover of the Parent company was EUR 12.14 million in FY 2015/2016, which is by EUR 115 thousand less than in the previous FY 2014/2015.

In the reporting year, the Group continued to work at the research and identification of customer-specific needs by developing and improving the offer of niche products. Additional revenue was drawn from the development of specific customer required functionality of A/S "SAF Tehnika" products. There remains an increased demand for radio systems that provide enhanced data transmission rate and can be enhanced and updated in order to improve data usage. This tendency increasingly determines the direction of new product development both for A/S "SAF Tehnika" and across the markets.

In the American region, where we keep accounting records of sales in the countries of both North, South, and Central Americas, the turnover was 10% higher than in the previous year and made up to 52% of the annual turnover of the Group. The US subsidiary company "SAF North America" LLC made a significant contribution to the product marketing and sales in USA and Canada. It also provides services of product warehousing and logistics. Sales / Turnover in the European and CIS region dropped by 4% due to structural changes of sales volumes. This, in turn, secured a 29% increase in the AMEA (Asia, Middle East, Africa) region in the reporting year, where the competition in the market of wireless data communication equipment is still highly intense. The turnover increase was related to the development of data transmission solutions and products tailored to specific customer needs.

Exports made 99.14% of the Group's (99.11% of the Parent company's accordingly) turnover and amounted to EUR 13.6 million (EUR 13.02 million, accordingly). During the reporting year, the Group exported its products to 76 countries worldwide.

In order to promote the recognition of SAF brand and to introduce SAF products and solutions to the existing and potential clients, the Group continued to actively participate in the most significant trade shows across Europe, America and Asia, with a special focus on the Spectrum Compact product line and next generation of INTEGRA products.

Export activities of the Group were supported by the Investment and Development Agency of Latvia (LIAA), which co-funded the Group's participation in some of the industry exhibitions.

In the reporting period, CFIP products were in the highest demand and the best-selling products were Integra, Lumina, FreeMile, and Marathon. There is an increasing demand for newer products of the Spectrum Compact line – measuring equipment for data network engineers.

At the end of the year, the Group's (Parent company's) net cash funds balance was EUR 5.91 million (EUR 5.67 million accordingly). The Group's (Parent company's) net cash flow was EUR 1 591 thousand (EUR 1 909 thousand accordingly) for the period of 12 months of the reporting year.

During the reporting year, the Group invested EUR 456 thousand into IT infrastructure, production and research equipment, purchase of software and licenses, as well as product certification.

The Group (Parent company) closed the FY 2015/2016 with profit of EUR 926 thousand (EUR 889 thousand accordingly), which is by EUR 353 thousand (EUR 334 thousand accordingly) less than in previous FY. The difference was largely made by lower revenues from currency fluctuations.

Research and development

The Group's long-term prerequisite for the existence and a success factor is its ability to ensure continuous product development. During the financial year, the Group continued to develop the INTEGRA product line by extending the offer in various frequency ranges, as well as finding solutions to enhance the functionality, improve performance and reduce production costs. The next generation of INTEGRA products was announced. Understanding the customers' desire to reduce installation time and costs for data communication equipment, as well as identifying the shortage of easy-to-use auxiliary devices on the market, the Group continued its work at the development of new versions of its spectrum analyzer – Spectrum Compact. A unique pocket-sized e-band microwave spectrum analyzer was put on the market. This device allows adjusting, troubleshooting and monitoring microwave data communication equipment in the frequency band between 70GHz and 87GHz.

Designs of new products are in progress. In the reporting period, the Latvian electrical and optical equipment industry competence center "LEO Pētījumu centrs" SIA provided EUR 345 thousand in co-funding to the Group's product development projects.

Future perspectives

A/S "SAF Tehnika" is the company with long-term competence in development and production of microwave radios. The company is capable of delivering excellent, high-quality products for the general market as well as succeeding in development of niche solutions. The Group's task is to proceed with development of next generation data transmission equipment, continue its work on manufacturing high-quality products for the microwave data communication market, providing not only standardized solutions, but also product modifications in order to meet customers' special needs. The goal of the Company is to stabilize sales levels to ensure a positive net result in the long term.

The Group is financially stable and looks to the next financial year positively; however, the Board of the Parent company abstains from providing certain prognosis for sales figures and operational results.

Post balance sheet events

During the period between the last day of the financial year and the date of signing of this report there are no subsequent events, which would have a significant effect on the financial position of the Group and/or Parent company as at 30 June 2016 and/or financial results and cash flow during the respective reporting period

Profit allocation proposal by the Board

The Board of the Company proposes to pay dividend of EUR 1 million.

These separate financial statements of A/S "SAF Tehnika" and consolidated financial statements of A/S "SAF Tehnika" and its subsidiaries are submitted to "Nasdaq Riga" AS together with Corporate Governance Report of the FY 2015/2016

**Normunds Bergs**

CHAIRMAN OF THE BOARD

Riga, 26 October 2016

Statement of the Board's responsibilities

The Board of A/S "SAF Tehnika" is responsible for preparing separate and consolidated financial statements of A/S "SAF Tehnika".

The separate and consolidated financial statements set out on pages 8 to 49 and are prepared in accordance with the source documents and present fairly the A/S "SAF Tehnika" (Parent company's) and A/S "SAF Tehnika" and its subsidiaries (the Group) financial position as at 30 June 2016 and the results of financial performance and cash flows for the year then ended.

The above mentioned financial statements are prepared in accordance with International Financial Reporting Standards as adopted by the

European Union on a going concern basis. Appropriate accounting policies have been applied on a consistent basis. Prudent and reasonable judgments and estimates have been made by the Board in the preparation of the financial statements.

The Board of A/S "SAF Tehnika" is responsible for the maintenance of proper accounting records, the safeguarding of the Group's and the Parent Company's assets and the prevention and detection of fraud and other irregularities in the Group and the Parent company. The Board is also responsible for compliance with requirements of normative acts of the countries where Group companies and the Parent company operate.

On behalf of the Board:

Normunds Bergs

CHAIRMAN OF THE BOARD

Riga, 26 October 2016

Council report

Supervisory Council of JSC SAF Tehnika (hereinafter Company) is of opinion the Company has performed very good during report period. The financial results and overall state of Company is fully satisfactory and hopefully in accordance to expectations of shareholders.

Having said that, Supervisory Board would like suggest to continue developing Company further in following areas:

- To more actively launch the production of new Integra radio modifications, this way assisting the pace of change of radio products sold;
- To continue seeking new market segments for Spectrum Compact measurement tools in other than telecom sectors;
- To expand the project business by offering Company's customized products and services in segments both traditional and new.

Vents Lacars

CHAIRMAN OF THE COUNCIL

Riga, 26 October 2016

During financial year 2015/2016 Supervisory Council exercised the functions of Revision Committee according to the laws in force and after completion of all the tasks can come to following conclusions:

- Preparation of the financial statement was performed in accordance with the present International Financial Reporting Standards and International Accounting Standards;
- Systems of internal control and risk management operate as well as business operations of the Company require it;
- Examination of annual report was made in accordance with the present Auditing Standards. Corrections of drawbacks established during the examination were performed accordingly;
- Supervisory Council has not established any fact which would give a ground to doubt the impartiality of the auditor selected for the examination of annual report from FY 2015/2016.

Corporate Social responsibility

Corporate social responsibility is a significant cornerstone of SAF Tehnika activities. The Company operates in such a way that its products and services would create added value to the customers as well as benefit the society as a whole. The following core principles guide our daily work: high quality standards in each of the Company's line of business, responsibility towards the environment, delivering on our promises when interacting with employees, shareholders, buyers, suppliers, society, and nation. We acknowledge that these particular principles are essential preconditions for successful activity of SAF Tehnika in the long run.

Responsible manufacturer

In its operations SAF Tehnika fully complies with corporate management standards and organizes the Company management in accordance with "Corporate Management Policies" and guidelines approved by AS "NASDAQ Riga".

We are focusing on reducing the Company's environmental impact. As responsible manufacturers, we make sure that SAF equipment is manufactured as compact and sustainable as possible. Even now we can provide the functionality of our products by using alternative energy sources only.

SAF Tehnika carefully monitors all production processes. From the smallest components to the fully functioning devices, the Company's production processes are oriented towards reducing environmental impacts of business activities. Whenever possible, the Company chooses local suppliers of components, as well as localizes all production processes at most. However, considering that there is a great deal of raw materials that are not available at the local market, and we cannot produce them either, SAF Tehnika selects suppliers that comply with the same policies of environmental protection in their business activity.

The Company complies with the all-time requirement to maintain the quality management system in accordance with the state standard LVS EN ISO 9001:2008 that provides efficient control and improvement of all processes and lines of business. By fulfilling the standard requirements, the Company can increase the quality of production and ensure its long-term development and growth.

Compliance auditing of the Quality System in SAF Tehnika is performed once a year, and recertification of the Quality System is carried out once every three years. Moreover, in October 2015, the certification organization "Bureau Veritas" performed recertification auditing, which certified the Company's compliance with ISO 9001:2008 requirements.

The Quality System is also regularly audited by inspectors who represent particular customers and/or regions. During the last reporting period, such audits were performed by representatives of certification organizations from Belarus and Russia.

Each year, the Company evaluates customer satisfaction by conducting a survey. The purpose is to get feedback from our clients. Customer surveys help us provide excellent services, eradicate deficiencies, and attend to customer requests and desires. They also reveal industry tendencies and provide further insight into customer needs by developing new and improving the current products. In 2015, more than 100 customers participated in the survey giving their overall high appraisal of the Company's products, help desk, and customer support.

We have intensified our efforts to reduce paper document turnover. We have introduced a number of online document flow systems, thus using less printing paper. All the waste paper is carefully collected and delivered to the paper mill in Ligatne for recycling.

Furthermore, we continue our cooperation with such organizations as "Latvijas Zaļais elektrons" ("Latvian Green Electron") and "Zaļais punkts" ("Green Dot") for other waste management, separation and recycling.

For The Society

On 13 May 2016, SAF employees together with a public organization "Bolderājas grupa" and "Kaņepes kultūras centrs" took part in the mega charity event at the Daugavgrīva fortress. We cut the grass and bushes, demolished unsafe buildings, and did all kinds of work to help this historic area of the fortress, which was built in the 17th century, to gradually regain a respectable appearance and become attractive to visitors. Thanks to our involvement, among others, the first music festival "Komēta" (the Comet) was held this summer at the Daugavgrīva fortress, promoting the "green" lifestyle.

More and more employees of SAF Tehnika support the environmentally friendly lifestyle and choose to commute to work by bicycle, thus contributing to reduction of vehicle emissions. The Company provides secure bike parking spaces, shower and changing facilities.

This year, we supported a charity event for SOS children's villages so that children from economically disadvantaged families could start their school studies. Together we provided stationery accessories, sports footwear and clothes, books, toys, and various food items.

We are the company with employees who are happy to Do Good!

For Education

SAF Tehnika is a unique company on a global scale. We are one of the rare market players in the field of microwave data transmission with more than 15 years of experience and knowledge base.

We are greatly concerned with passing our knowledge and gathered experience to next generations; therefore, whenever possible, we try to motivate young people to study natural sciences.

Also in this reporting period, several employees of the Company visited educational institutions as guest lecturers to share their knowledge and hands-on industry experience.

Over the years, the Company provided both financial support and participated in project activities for the educational programme "Mission Possible" ("Iespējamā misija"). The goal of the programme is to boost students' motivation to become creative and positive teachers at schools. As the result, we can now be proud of having a more exciting learning process and new teachers of natural sciences in a number of educational institutions.

Besides, SAF Tehnika is a long-time supporter of the state summer school "ALFA" for award winners of academic competitions and student workshops. Young people dig in various studies there like mathematics, physics, computer science, chemistry, biology, as well as social sciences and humanities.

Groups of schoolchildren and students are regular visitors – we demonstrate and explain the practical application of lessons learned at school. During the tours, we introduce young people to the Company's history, production processes, field of work, products and their development. The real operating, successful company serves as the motivation element for schoolchildren in choosing their further occupation. By visiting the Company, young people can see the practical application of natural sciences.

We welcome interns from various educational institutions. Most of our young trainees come from RTK and RTU. Since 2013, we have been successfully cooperating with "Riga Technical University Development Fund", through which competitions are announced for paid internships. We are happy to offer summer jobs to students, especially to our former interns – they are able to successfully replace the Company's employees away on vacation.

The Company's management and employees are frequently asked for assistance and evaluation of graduate thesis (for Bachelor's and Master's degree at universities) and graduation papers of vocational school students. In this field, we have established longstanding and successful cooperation with Riga Technical College (RTK), Riga Technical University (RTU), and Latvian University (LU).

Employees

The key to successful operation of every company is people who are working in it. SAF Tehnika is no exception. Employees have been and will always be the greatest asset of SAF Tehnika.

During this reporting period we have grown and evolved, the number of employees in the Company has increased to 177. This year, we have also continued to attract top specialists, talented students and graduates.

SAF Tehnika maintains a stable and motivating working environment in

the Company. We pursue development, openness and equality; therefore, the Company makes sure that everyone has an opportunity to unlock their potential, share ideas and promote their personal growth together with SAF. At the same time, we try to create a sustainable, effective and safe environment.

Employee Development

The Company is focused on professional development and personal growth of employees.

SAF Tehnika continuously invests in staff training and development, and ensures opportunities for professional growth of all employees. The higher the qualification of an employee is, the more advanced the Company is.

In order to gain new experiences, our specialists from different departments participate in trade shows and events abroad, go on business trips, establish new contacts and maintain relations with the existing cooperation partners. Each year the Company also organizes corporate training – employees attend various courses, seminars and conferences both in Latvia and outside its borders. For many years SAF Tehnika has been cooperating with the Latvian Electrical Engineering and Electronics Industry Association (LETERA) and with a number of training companies.

For those employees who continue their studies in educational institutions, the Company provides opportunities for a part-time job. Those who receive knowledge in the job-related field have an opportunity to use our paid educational leaves.

Health and Safety at Work

All SAF Tehnika's employees are provided with health insurance policies. The Company provides regular mandatory health checks in the Company's premises, as well as vaccinations against various diseases and a special eyesight test.

The Company has a very serious attitude towards safety at the workplace. Employees undergo regular trainings regarding occupational health, work safety and fire safety issues. We provide non-hazardous and friendly working environment. Employees have ergonomic workplaces; employees, whose job duties may require having the appropriate protective equipment, are provided with all the necessary means.

Remuneration and Additional Benefits

SAF Tehnika honestly and fully complies with labour law requirements; we are a socially responsible company towards both our employees and the state. Employees are motivated by receiving bonuses and extra pays for their individual and corporate achievements in addition to their fixed remuneration. In some departments, where it is possible, a bonus system has been introduced based on personal achievements.

On special occasions like getting married and giving birth to a child, employees receive additional financial support. The Company also provides material aid to those employees who have lost a close family member. Employees who have been working for the Company for 5 and more years get an extra compensated holiday in addition to their annual vacation.

Our employees enjoy relaxing both at company-wide events and team outings with their fellow co-workers cycling or boating. It is a wonderful opportunity to build strong and friendly teams.

The Company's employees participate in various leisure activities with great pleasure – both in annual events and activities that have become traditional for the Company – general meetings of employees, a Christmas party, a Midsummer Night's party, etc.

In mid-May, team of 22 SAF employees participated together in "Lattelecom Riga Marathon" race. In September, SAF team traditionally competed in the Cycling Unity Ride in Sigulda.

We are pleased that with each year SAF Tehnika becomes more attractive as an employer in the eyes of potential job seekers. It is proved by a higher level of proficiency and operational excellence of our employees, as well as by the number of applications for the announced vacancies and internships.

Corporate governance

In the accounting period SAF Tehnika JSC has followed the principles of good corporate governance.

Selected principles from SAF Tehnika Corporate Governance report:

Shareholders' meetings

Shareholders exercise their right to participate in the management of SAF Tehnika JSC at Shareholders' meetings. According to the laws in force, SAF Tehnika JSC calls the annual Shareholders' meeting at least once a year. Extraordinary Shareholders' meetings are called per necessity. All shareholders have equal rights to participate in the management of SAF Tehnika JSC. They are entitled to participate at Shareholders' meetings and to receive information that shareholders need in order to make decisions. Only Shareholders' meeting can amend the Articles of association.

Selection methods of Management Board and Supervisory Council

According to the Commercial law of Latvia and the Articles of association of SAF Tehnika JSC its Supervisory Council consists from five members and it is elected by Shareholders' meeting for the term of three years. For its part, Management Board consists from four members and it is elected by Supervisory Council for a term of three years. Management Board members must meet the criteria approved by Supervisory Council. Chairman of the Management Board is nominated by Supervisory Council. Supervisory Council can recall a member of the Management Board if there is a significant ground for that. Member of the Management Board can also leave the post voluntarily at any time.

Powers of the Management Board

Powers of the Management Board are set in the Articles of association of SAF Tehnika JSC which is available on SAF website www.saftehnika.com. Management Board represents and manages SAF Tehnika JSC. Members of the Management Board can represent SAF Tehnika each separately. Shareholders' meeting of SAF Tehnika JSC can not decide upon issues which fall within the competence of Management Board.

Dividend policy

SAF Tehnika has not adopted a written dividend policy but the Company has always paid 15% to 50% of net profit in dividends.

Other contractual agreements with auditors

SAF Tehnika JSC does not have any other contractual agreement with auditors - only auditing agreement.

To the Shareholders of AS "SAF Tehnika"

Report on AS "SAF Tehnika" separate financial statements and AS "SAF Tehnika" Group consolidated Financial Statements

We have audited separate financial statements of AS "SAF Tehnika" and consolidated financial statements of AS "SAF Tehnika" and its subsidiaries (further on – the Group) together set out on pages 8 to 40 of the accompanying annual report of AS "SAF Tehnika" for the year ended 30 June 2016. Audited separate financial statements of AS "SAF Tehnika" and consolidated financial statements of AS "SAF Tehnika" Group comprise statements of financial position as of 30 June 2016, statements of profit or loss and other comprehensive income, statements of changes in equity and statements of cash flows for the year then ended as well as the summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Separate and Consolidated Financial Statements

Management of AS "SAF Tehnika" is responsible for the preparation and fair presentation of the separate financial statements of AS "SAF Tehnika" and consolidated financial statements of the Group in accordance with International Financial Reporting Standards as adopted by the European Union, and for such internal control as management determines is necessary to enable the preparation of the separate and consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on the accompanying separate financial statements and the consolidated financial statements based on our audit. We conducted our audit in accordance with International Standards on Auditing. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the separate financial statements and consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the separate financial statements and the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the separate financial statements and the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the separate financial statements and the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the separate financial statements and the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the separate financial statements and the consolidated financial statements give a true and fair view of AS "SAF Tehnika" as a separate entity and AS "SAF Tehnika" as a Group financial position as of 30 June 2016, and of their financial performance and their cash flows for the year then ended in accordance with International Financial Reporting Standards as adopted by the European Union.

Report on Other Legal and Regulatory Requirements

We have reviewed the management report for the year ended 30 June 2016 set out on pages 4 and 5 of the accompanying annual report and have not identified any material inconsistencies between the financial information contained in the management report and that contained in the separate financial statements of AS "SAF Tehnika" and consolidated financial statements of the AS "SAF Tehnika" Group for the year ended 30 June 2016.

We have also obtained and reviewed the Statement of corporate governance for the year ended 30 June 2016 prepared by AS "SAF Tehnika". In our opinion, the Statement contains information required by Article 56.2, third paragraph, clause 1, of the Financial Instrument Market Law.

The accompanying notes on pages 13 to 40 form an integral part of these financial statements.

On behalf of the Board:

Normunds Bergs

CHAIRMAN OF THE BOARD

Riga, 26 October 2016

Notes to the consolidated financial statements

1. General information

The core business activity of A/S "SAF Tehnika" (hereinafter – the Parent company) and its subsidiaries (together hereinafter referred to as the Group) is the design, production and distribution of microwave radio data transmission equipment thus offering an alternative to cable channels. The Group offers products to mobile network operators, data service providers (such as Internet service providers and telecommunications companies), as well as state institutions and private companies.

Promotion of the Parent company's products and services, marketing, market research, attraction of new clients and technical support in North America is provided by a 100% subsidiary "SAF North America" LLC. The said company is registered in the USA and operates in Aurora, Colorado.

In August 2012 another company began operations in North America – "SAF Services" LLC, in which the Parent company held 50% shares (joint venture arrangement). The objective of establishing "SAF Services" LLC was to provide local clients with services connected with the creation, long-term maintenance and management of data transmission networks. The test network set up by "SAF Services" LLC using the equipment of A/S "SAF Tehnika" was a success and the client recognised it to be compliant with the defined requirements but no cooperation agreement was signed and "SAF Services" LLC was unable to generate any income from its investments. Consequently, any further development of this business in the USA was suspended and the founder and holder of 50% shares, "STREAMNET" OU, discontinued cooperation. In April 2015 the Parent company became the sole owner of "SAF Services" LLC.

The Parent company is a public joint stock company incorporated under the laws of the Republic of Latvia. Its legal address is Ganību dambis 24a, Rīga, LV-1005, Latvia.

The shares of the Parent company are listed on "Nasdaq Riga" AS Stock Exchange, Latvia.

These separate financial statements of A/S "SAF Tehnika" and consolidated financial statements of A/S "SAF Tehnika" and its subsidiaries (hereinafter – financial statements) were approved by the Parent company's Board on 26 October 2016. The financial statements will be presented for approval to the shareholders' meeting. The shareholders have the power to reject the financial statements prepared and issued by management and the right to request that new financial statements be issued.

2. Summary of accounting principles used

These financial statements are prepared using the accounting policies and valuation principles set out below. These policies have been applied consistently to all the years presented, unless otherwise stated.

The previous financial statements were prepared for the financial year ended 30 June 2015 and are available at the Parent company's headquarters on Ganību dambis 24a, Rīga, Republic of Latvia and at the Parent company's website: www.saftehnika.com

A Accounting principles

These financial statements are prepared in accordance with International

Financial Reporting Standards as adopted by the European Union (IFRS).

The financial statements have been prepared under the historical cost convention less impairment.

New Standards and Interpretations

Standards, amendments to standards and interpretations that for the first time are applicable to financial statements for year ended 30 June 2016.

(i) New IFRS 14 "Regulatory Deferral Accounts"

This standard does not apply to the Group and thus affects neither the Group's nor the Parent company's financial statements.

(ii) Amendment to IAS 16 "Property, plant and equipment" and IAS 38 "Intangible assets" on depreciation and amortisation

The amendment provides additional guidance on how the depreciation or amortisation of property, plant and equipment and intangible assets should be calculated. It is clarified that a revenue based method is not considered to be an appropriate manifestation of consumption. The amendments do not have any impact on the Group or Parent company as they don't use a revenue-based method to depreciate its non-current assets.

(iii) Amendments to IAS 16 "Property, plant and equipment" and IAS 41 "Agriculture" regarding bearer plants

Under the amendments, biological assets that meet the definition of bearer plants will no longer be within the scope of IAS 41 Agriculture. Instead, IAS 16 will apply. The amendments do not have any impact on the Group or Parent company as they do not have any bearer plants.

(iv) Amendments to IAS 27 "Separate financial statements" on the equity method

The amendments allow entities to use the equity method to account for investments in subsidiaries, joint ventures and associates in their separate financial statements. These amendments do not have impact on the separate financial statements of the Parent company since the company continue to apply historical cost method when accounting for its investments in subsidiaries.

Annual improvements for 2012 – 2014 cycle

(v) IFRS 5 "Non-current assets held for sale and discontinued operations"

Since the Group does not have non-current assets held for sale, then these improvements do not impact either the Group or the Parent company.

(vi) IFRS 7 "Financial instruments: Disclosures"

Improvements relate to condensed interim financial statements and servicing contracts that includes a fee that may constitute continuing involvement in a financial asset. These amendments do not have any impact on the Group or Parent company.

IAS 19 "Employee benefits"

The amendments clarify how to account for employment related payments into defined benefit plans. Since there are no such payments within the Group, the amendments do not impact either the Group or the Parent company.

(vii) IAS 34 "Interim financial reporting"

The amendments clarify disclosure requirements for the interim financial reporting. These amendments do not have any impact on the Group or Parent company.

(viii) Amendments to IAS 1 Disclosure Initiative

The amendments clarify, rather than change, existing IAS 1 requirements. These amendments do not have any impact on the Group or Parent company.

(ix) Amendments to IFRS 10, IFRS 12 and IAS 28

The amendments clarify applying the investment entities exception. These amendments do not have any impact on the Group or parent company.

(x) IFRS 12 "Disclosure of interests in other entities"

IFRS 12 is a consolidated disclosure standard about the entity's interests in subsidiaries, joint arrangements, associates and unconsolidated structured entities. This standard does not have material impact on the Group's or the Parent company's financial statements.

B Consolidation

(a) Subsidiaries

Subsidiaries are entities controlled by the Group. The Group controls an entity when it is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. The financial statements of subsidiaries are included in the consolidated financial statements from the date on which control commences until the date on which control ceases. Subsidiary was established; therefore acquisition accounting was not applied.

(b) Investment in equity-accounted investees

Investment in equity-accounted investees was an investment in a joint venture, which became a subsidiary after the acquisition of additional shares in 2015. Joint venture is a structure over which the Group has joint control ensuring that the Group is entitled to net assets of this structure rather than has rights with regard to assets and obligations with regard to liabilities. Investments in joint ventures are accounted for on equity basis. Investments are disclosed at cost including directly attributable transaction costs. The consolidated financial statements include the share of the Group in the profit or loss and other comprehensive income of joint venture until the joint control ends.

Subsidiaries and joint ventures controlled by the Parent company:

	„SAF North America“ LLC	„SAF Services“ LLC
Residence country	USA	USA
Participation	100%	100%
Subsidiary and joint venture's equity		
30.06.2016 EUR	108 983	(920)
30.06.2015 EUR	70 508	722
Subsidiary and joint venture's (profit/losses)		
2015/ 2016 EUR	37 923	(1 649)
2014/2015 EUR	46 136	(2 783)

In April 2015 the Parent company became the sole owner of "SAF Services" LLC. At the end of the reporting year "SAF Services" LLC is a dormant entity.

The accounting policies of subsidiaries are changed when necessary in

order to ensure consistency with those of the Group.

(c) Transactions eliminated on consolidation

Internal transactions, account balances and unrealized gains from transactions between the Group companies are eliminated. Unrealized gains are also eliminated unless objective evidence exists that the asset involved in the transaction has impaired. Unrealized gains arising from transactions with a joint venture are also eliminated.

C Foreign currency revaluation

(a) Functional and reporting currency

Items included in the financial statements of each structural unit are measured using the currency of the economic environment in which the structural unit operates (the functional currency).

Financial accounting of the Group and the Parent company is carried out in euro and the financial statements are prepared and presented in euro.

(b) Transactions and balances

All amounts in these financial statements are expressed in the Latvian official currency – euro (EUR). Transactions in foreign currencies are translated into euros at the reference exchange rate set by the European Central Bank as at the transaction date. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at the reporting date exchange rates of monetary assets and liabilities denominated in foreign currencies are recognized in the income statement of the respective period.

All monetary asset and liability items were revalued to the functional currency of the Group (Parent company) according to the reference exchange rate of the European Central Bank on the reporting date. Non-monetary items of assets and liabilities are revalued to the functional currency of the Group in accordance with the reference exchange rate set by the European Central Bank on the transaction date.

	30.06.2016.	30.06.2015.
1 USD	1.1102	1.1189
1 GBP	0.8265	0.7114

(c) Group companies

The results of operations and the financial position of the Group companies (none of which are operating in hyperinflation economics) that operate with functional currencies other than the reporting currency are translated to the reporting currency as follows:

1. Assets and liabilities are converted according to exchange rate as at the date of statement of financial position;
2. Transactions of the statement of profit and loss and other comprehensive income are revalued according to exchange rate as at the date of transaction; and
3. All currency exchange differences are recognized as a separate item of equity.

D Fixed assets

Fixed assets are carried at cost less accumulated depreciation and impairment losses. Cost includes expenses directly related to acquisition of fixed assets. Such cost includes the cost of replacing part of such fixed asset if the asset recognition criteria are met.

Leasehold improvements are capitalized and disclosed as fixed assets. Depreciation of these assets is calculated over the shorter of the leasehold period or the estimated useful life on a straight line basis.

Where an item of fixed assets has different useful lives, they are accounted for as separate items of fixed assets.

The cost of replacing part of an item of fixed assets is recognised in the carrying amount of the item if it is probable that the future economic benefits embodied within the part will flow to the Group (Parent company) and its cost can be measured reliably. The costs of the day-to-day servicing of fixed assets is recognised in the profit or loss statement as incurred.

Current maintenance costs of tangible assets are recognized in the profit and loss statement as incurred.

Depreciation is calculated on a straight-line basis over the entire useful lives of the respective fixed asset to write down each asset to its estimated residual value over its estimated useful life using the following rates:

	% per year
Equipment	25
Vehicles	20
Other equipment and machinery	20-50

Capital repair costs on leased fixed assets are written off on a straight line basis during the shortest of the useful lifetime of the capital repairs and the period of lease.

The assets residual values, useful lives and methods are reviewed, and adjusted if appropriate, at each reporting date. An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount exceeds its estimated recoverable amount (see Note G).

Profit and losses on disposals are determined by comparing proceeds with the respective carrying amount and included in the profit or loss statement.

E Intangible assets

(a) Trademarks and licenses

Trademarks and licenses have a definite useful life and are carried at cost less accumulated amortisation and any accumulated impairment losses. Amortisation is calculated on a straight-line basis to allocate the costs of trademarks and licenses over their estimated useful life, which usually is 3 years.

(b) Software

The acquired software licenses are capitalised on the basis of the purchase and installation costs. These costs are amortised over their estimated useful lives of 4 years.

F Cost of research and development activities

Research costs are recognized in profit and loss statement as incurred. An intangible asset arising from the development expenditure on an individual project is recognized only when the Group (Parent company) can demonstrate the technical feasibility of completing the intangible asset so that it will be available for use or sale, its intentions to complete and its ability to use or sell the asset, and when the Group (Parent company) can

demonstrate how the asset will generate future economic benefits, the availability of resources to complete and the ability to measure reliably the expenditure during the development. Following the initial recognition of the development expenditure, the cost model is applied requiring the asset to be carried at cost less any accumulated amortisation and impairment losses. Any expenditure capitalized is amortized over the period of the expected future sales from the related project.

G Impairment of long term investments

Intangible assets that are not put in use or have an indefinite useful life are not subject to amortisation and are reviewed for impairment on an annual basis.

Moreover, the carrying amounts of the Group's (Parent Company's) fixed assets and intangible assets that are subject to amortisation and depreciation and other non-current assets except for inventory and deferred tax asset are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, the asset's recoverable amount is estimated.

An impairment loss is recognised whenever the carrying amount of an asset or its cash-generating unit exceeds its recoverable amount. A cash-generating unit is the smallest identifiable asset group that generates cash flows that largely are independent from other assets and groups. Impairment losses are recognised in profit or loss. Impairment losses recognized in respect of cash-generating units are allocated to reduce the carrying amount of the other assets in the unit (group of units) on a pro rata basis.

The recoverable amount of an asset or cash-generating unit is the greater of its value in use and its fair value less costs to sell. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset in relation to which the future cash flows have not been adjusted.

All Group's (Parent Company's) assets are allocated to two cash generating units that are identified as Group's (Parent Company's) operating segments (see Note 18). There have been no impairment indicators noted.

In respect of non-current assets, impairment losses recognised in prior periods are assessed at each reporting date for any indications that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised.

H Segments

Information on the Group's (Parent company's) operating segments is disclosed in Note 18. Segment results that are reported to the Chief Executive Officer of the Group (Parent company) include items directly attributable to a segment as well as those that can be allocated on a reasonable basis. Unallocated items comprise mainly corporate assets (primarily the Group's (Parent Company's) headquarters), head office expenses, and tax assets and liabilities.

I Government grants

Government grants are recognized where there is a reasonable assurance that the grant will be received and all attaching conditions will be complied with. Government grants are systematically recognized as income in the respective periods in order to balance them with compensated expenses thus recognizing receivables. Where the grant relates to an asset, the fair value is credited to a deferred income account and is released to the profit or loss statement over the expected useful life of the relevant asset by equal annual instalments.

Within the framework of the contract signed between A/S "SAF Tehnika" and "LEO Pētījumu centrs" SIA a cooperation project on a "Competence centre for the Latvian industry of manufacturing electrical and optical devices" was implemented till 31 December 2015, regarding which "LEO Pētījumu centrs" SIA had signed a contract with State Agency Latvian Investment and Development Agency in order to obtain financing from the European Regional Development Fund. As part of the above project, A/S "SAF Tehnika" was conducting three individual research activities to develop new products. In order to implement projects under these activities, co-financing was provided to cover remuneration of project staff and other costs related to the specific projects. Co-financing received related to expense items recognized in Statement of Profit or Loss and Other Comprehensive Income and thus was recognized as income in order to compensate the costs incurred.

On May 2016 a new contract between A/S "SAF Tehnika" and "LEO Pētījumu centrs" SIA was signed for implementation of the project on a "Support for development of new products and technologies within the competence centers". The project was started in June 2016.

In case the co-financing is granted, however the cash is not yet received, respective receivables are recognized in Statement of Financial Position under Other receivables.

J Stock

Stock is stated at the lower of cost or net realizable value. Cost is measured based on the first in – first out (FIFO) method. Costs of finished goods and work-in-progress include cost of materials, personnel and depreciation.

Net realisable value is the estimated selling price in the ordinary course of Group's (Parent company's) business, less the estimated costs necessary to make the sale. Estimating the net sales value of inventory, the carrying amount is reduced in relation to the slow-moving inventory. Slow-moving inventory is the inventory which movement in 12, 9 or 6-month period respectively has been less than 30% comparing with the amount at beginning of period. Provisions for slow-moving inventory are made according to the following rates:

The time interval where has not been movement	Provisions rate %
6 to 8 months	20
9 to 11 months	50
12 months and more	100

K Financial instruments

The Group's (Parent company's) financial instruments consist of trade receivables, equity-accounted investees, investments in subsidiaries and joint ventures, investments in other companies' equity, other receivables, cash and cash equivalents, borrowings, trade payables and other payables and derivatives. All other financial assets except for equity-accounted

investees and derivatives are classified as loans and receivables but liabilities – as liabilities at amortised cost. Financial instruments of the Group (Parent company) except for derivatives are initially recognised at fair value plus directly attributable transaction costs. Financial assets are derecognised when the rights to receive cash flows from the investments have expired or have been transferred and the Group (Parent company) has transferred substantially all risks and rewards of ownership. Financial liabilities are derecognized if the Group's (Parent company's) obligations specified in the contract expire or are discharged or cancelled.

Loans, receivables and other debts

Loans, receivables and other debts are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market, other than held for trading. Loans and receivables are stated at their amortized cost after deducting allowance for estimated irrecoverable amounts. Amortized cost is determined using the effective interest rate method, less any impairment losses.

The effective interest rate is the rate that exactly discounts the estimated future cash payments and receipts through the expected life of the financial asset. When calculating the effective interest rate, the Group (Parent company) estimates future cash flows considering all contractual terms of the financial instruments. An allowance for impairment of loans and receivables is established when there is objective evidence that the Group (Parent company) will not be able to collect all amounts due according to the original terms of the receivables. Significant financial difficulties of the debtor, probability that the debtor will enter bankruptcy or financial reorganisation, and default or delinquency in payments are considered indicators that the loan or trade receivable is impaired. The amount of the allowance is the difference between the asset's carrying amount and the present value of estimated future cash flows, discounted at the original effective interest rate. The carrying amount of the asset is reduced and the amount of the loss is recognised in the profit or loss statement. When a loan, receivables and other debts are uncollectible, it is written off.

Available for sale financial investments

Financial investments available-for-sale are acquired to be held for an indefinite period of time. Financial investments, whose market value is not determined in an active market and whose fair value cannot be reliably measured, are carried at acquisition cost less impairment. All other financial investments available-for-sale are carried at fair value. Profit or losses resulting from the change in fair value of financial investments available-for-sale, except for impairment losses, are recognised in other comprehensive income until the financial asset is derecognised; thereafter, the cumulative gain or loss previously recognised in other comprehensive income is recognised in profit or loss.

Liabilities

Liabilities are recognised initially at fair value plus directly attributable transaction costs and subsequently measured at amortised cost using the effective interest method.

For the description of accounting policy for derivatives see Note 3 (2).

L Cash and cash equivalents

Cash and cash equivalents comprise current bank accounts balances and deposits, and short term highly liquid investments with an original maturity of three months or less.

M Share capital

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of new shares are charged against the share premium account.

N Corporate income tax and Deferred tax

Corporate income tax comprises current and deferred tax.

The calculated current tax is the expected tax payable on the taxable income for the year, using tax rates enacted or substantially enacted at the balance sheet date, and any adjustment to tax payable in respect of previous years.

Deferred taxation arising from temporary differences between carrying amounts for accounting purposes and for tax purposes is calculated using the liability method. However, if the deferred tax arises from initial recognition of an asset or liability in a transaction other than a business acquisition that at the time of the transaction affects neither accounting, non-taxable profit or loss, it is not accounted for. Deferred tax is determined using tax rates (and laws) that have been enacted by the financial position date and are expected to apply when the related deferred tax asset is realised or the deferred income tax liability is settled. Deferred tax assets are recognised to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilised.

Income taxes are recognized through profit or loss unless they relate to items recognized directly in equity.

O Employee benefits

The Group (Parent company) makes social insurance contributions under the State's health, retirement benefit and unemployment schemes at the statutory rates in force during the year, based on gross salary payments. The Group (Parent company) will have no legal or constructive obligations to pay further contributions if the statutory fund cannot settle their liabilities towards the employees. Social insurance and pension plan contributions are included in the expenditures in the same period as the related salary cost.

P Revenue recognition

Revenue comprises the fair value of the goods and services sold, net of value-added tax and discounts. Revenue is recognized as follows:

(a) Sales of goods

Sale of goods is recognised when a Group (Parent company) has passed the significant risks and rewards of ownership of the goods to the customer, i.e. delivered products to the customer and the customer has accepted the products in accordance with the contract terms, and it is probable that the economic benefits associated with the transaction will flow to the Group (Parent company).

(b) Provision of services

Revenue is recognized in the period when services are provided.

(c) Provision of extended warranty service

The Group (Parent company) provides extended warranty service of three to five years in addition to standard one to five years period depending from product. Revenue is recognized over the warranty extension period.

Q Lease

Leases of fixed assets in which the risks and rewards of ownership are retained by the lessor are classified as operating leases (lease). Payments made under operating leases (net of any incentives received from the lessor) are charged to the profit or loss statement on a straight-line basis over the lease period.

R Payment of dividends

Dividends payable to the shareholders are recognised as a liability in the financial statements in the period in which the dividends are approved by the shareholders.

S Financial income and expenses

Financial income and expenses comprise interest payable on borrowings calculated using the effective interest rate method, interest receivable on funds invested and foreign exchange gains and losses. Interest income is recognised in the income statement as it accrues, using the effective interest method. The interest expenses of finance lease payments are recognized in profit or loss using the effective interest rate method.

T New standards and interpretations not yet adopted

The following new Standards and Interpretations are not yet effective for the year ended 30 June 2016 and have not been applied in preparing these consolidated financial statements:

(i) IFRS 9 Financial instruments, effective for financial years beginning on or after 1 January 2018, once endorsed by the EU.

The Group doesn't intend to apply the standards earlier as defined in the standard.

(ii) IFRS 15 Revenue from Contracts with Customers, effective for financial years beginning on or after 1 January 2018, once endorsed by the EU.

The Group doesn't intend to apply the standard earlier as defined in the standard.

(iii) Amendments to IFRS 10 Consolidated financial statements and IAS 28 Sale or Contribution of Assets between an Investor and its Associate or Joint Venture, endorsement deferred indefinitely.

Currently the standard is not binding to the Group, since it does not have investments in associates or joint ventures.

(i) IFRS 9 Financial instruments, effective for financial years beginning on or after 1 January 2018, once endorsed by the EU.

The Group doesn't intend to apply the standards earlier as defined in the standard.

(iv) Disclosure Initiative – Amendments to IAS 7 Cash flow review, (effective for financial years beginning on or after 1 January 2017, once endorsed by the EU).

Applying this standard the financial statements will provide additional information. The Group doesn't intend to apply the standard earlier as defined in the standard.

(v) Amendments to IAS 12 Income tax, effective for financial years beginning on or after 1 January 2017, once endorsed by the EU.

These amendments will not have a material impact on the Group's and Parent company's financial statements.

(vi) *Amendments to IFRS 2 Share-based Payment, effective for financial years beginning on or after 1 January 2018, once endorsed by the EU.*

The Group doesn't intend to apply the standard earlier as defined in the standard and provides these amendments will not have a material impact on the Group's and Parent company's financial statements.

(vii) *IFRS 16 "Leases" (effective for financial years beginning on or after 1 January 2019, once endorsed by the EU.*

The Group doesn't intend to apply the standard earlier as defined in the standard.

3. Financial risk management

(1) Financial risk factors

The Group's activities expose it to a variety of financial risks:

- (a) foreign currency risk
- (b) credit risk;
- (c) liquidity risk;
- (d) interest rate risk.

The Group's overall risk management focuses on the unpredictability of financial markets and seeks to minimise its potential adverse effects on the Group's financial performance. The Group uses derivative financial instruments to hedge certain risk exposures. The responsibility for risk management lies with the Finance Department. The Finance Department identifies and evaluates risks and seeks for solutions to avoid financial risks in close co-operation with other operating units of the Group. Financial risks are managed both on Parent Company and consolidated level.

(a) Foreign currency risk

The Group operates in the international market and is subject to foreign currency risk arising primarily from USD fluctuations.

Foreign currency risk arises when future commercial transactions, recognised assets and liabilities are denominated in a currency different from the Group's functional currency. To manage the foreign currency risk arising from future commercial transactions and recognised assets and liabilities, the Group uses forward foreign currency contracts. The Finance Department analyses the net open position in each foreign currency. The Group might decide to enter to forward foreign currency contracts or to maintain borrowings (in form of credit line) in appropriate currency and amount.

The following schedule summarises net open positions for currencies expressed in EUR as at 30 June 2016:

Group	EUR	USD	Other currencies	Total
Financial assets				
Gross trade receivables	660 166	1 143 638	-	1 803 804
Cash and cash equivalents	1 933 286	3 977 573	-	5 910 859
Total	2 593 452	5 121 211	-	7 714 663
Financial liabilities

Sensitivity analysis

A 10 % weakening of the euro against USD on 30 June would increase (decrease) profit or loss and equity of the Group (Parent company) by the amounts shown below. This analysis assumes that all other variables, in particular interest rates, remain constant.

	Group		Parent company	
	2015/ 2016	2014/ 2015	2015/ 2016	2014/ 2015
	Effect in EUR	Effect in EUR	Effect in EUR	Effect in EUR
USD	462 836	277 478	477 534	276 311
	462 836	277 478	477 534	276 311

(b) Credit risk

The Group (including Parent company) has significant exposure of credit risk with its customers. The Group's policy is to ensure that wholesale of products is carried out with customers having appropriate credit history. If the customers are residing in countries with high credit risk, then Letters of Credit issued by reputable credit institutions are used as credit risk management instruments. In situations where no Letters of Credit can be obtained from reputable credit institutions, the prepayments from the customers are requested or State Export Guarantees purchased. Customers' financial position is monitored on regular basis and assigned credit limits has been changed based on credit history and customer's paying behaviour.

As at 30 June 2016, the Group's credit risk exposure to a single customer amounted to 16.76% of the total short and long-term receivables and 9.24% from total net sales (30.06.2015.: 12.52% and 5.64.% accordingly), and Parent company's credit risk exposure to a single customer amounted to 15.50% and 10.29% from total net sales (30.06.2015: 9.39% and 5.91% accordingly). With respect to credit risk arising from the other financial assets of the Group, which comprise cash and cash equivalents, the Group's exposure to credit risk arises from the default of the counterparty, with a maximum exposure equal to the carrying amount of these instruments. The Group's maximum credit risk exposure amounts to EUR 8 120 666 or 50.87% of total assets (30.06.2015.: EUR 8 090 941 or 59.29% of total assets), and Parent company's maximum credit risk exposure amounts to EUR 7 999 218 or 61.35% of total assets. For more information on the Group's and Parent company's exposure to credit risk please refer to Note 9.

(c) Liquidity risk

The Group follows a prudent liquidity risk management and hence maintain a sufficient quantity of liquid funds. The Group's current liquidity ratio is 6.25 (30.06.2015: 5.8), quick liquidity ratio is: 4.09 (30.06.2015: 3.7), and Parent company's current liquidity ratio is 6.89 (30.06.2015: 6.6), quick liquidity ratio is: 4.55 (30.05.2015: 4.2).

The Group's management monitors liquidity reserves for the operational forecasting, based on estimated cash flows. Most of the Group's liabilities are short term. Management believes that the Group will have sufficient

liquidity to be generated from operating activities and does not see significant exposure to liquidity risk. For more information on the Group's and Parent company's exposure to liquidity risk please refer to note 15.

(d) Interest rate risk

As the Group does not have significant interest bearing liabilities, thus the Group's cash flows and net results are largely independent of changes in market interest rates. The Group's cash flows from interest bearing assets are dependent on current market interest rates; however, as the Group and Parent company mainly has short-term interest-bearing liabilities, the exposure is not significant.

(2) Accounting for derivative financial instruments

The Group uses derivative financial instruments such as forward currency contracts to hedge its risks associated with foreign currency fluctuations. Such derivative financial instruments are initially recognized at fair value on the date on which derivative contract is entered to and are subsequently re-measured at fair value through profit or loss. Derivatives are carried as assets when the fair value is positive and as liabilities when the fair value is negative. The fair value of forward currency contracts is calculated by reference to current forward exchange rates for contracts with similar maturity profiles.

Any profit or losses arising from changes in fair value of derivatives that do not qualify as hedge accounting are taken directly to profit or loss for the year.

As at 30 June 2016 and 30 June 2015 the Group and parent company did not have any open derivative financial instruments agreements.

(3) Fair value

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date in the principal, or in its absence, the most advantageous market to which the Group has access at that date. The fair value of liabilities represent default risk. When available, the Group measures the fair value of an instrument using quoted prices in an active market for that instrument. Fair value is classified in various levels in the fair value hierarchy according to data used in measurement methods:

Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities;

Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices);

Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

If the inputs used to measure the fair value of an asset or a liability might be categorized in different levels of the fair value hierarchy, the fair value measurement is categorized in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement. The Group recognizes reclassification among fair value hierarchy levels in the end of the reporting period in which the reclassification was performed.

Level 1 includes cash and its equivalents. Cash and cash equivalents are financial assets with maturities below 3 months. The Group believes that

the fair value of these financial assets correspond to their initial nominal value and carrying amount at any of the subsequent dates.

The Group does not have financial assets and liabilities included in Level 2.

Level 3 include trade receivables, other debts, other financial assets, trade payables and other payables, loans and other financial liabilities. These financial assets and liabilities usually mature within 6 months, therefore the Group believes that the fair value of these financial assets correspond to their initial nominal value and carrying amount at any of the subsequent dates.

4. Management of the capital structure

The Group manages its capital to ensure that the Group will be able to continue as a going concern while maximizing the return to stakeholders through the optimization of the debt and equity balance. The capital structure indicator of the Group consists of debt, which includes the borrowings disclosed in Note 16, cash and cash equivalents and equity, comprising issued capital, retained earnings and share premium. The gearing ratio at the year-end was as follows:

	Group		Parent company	
	30/06/2016	30/06/2015	30/06/2016	30/06/2015
	EUR	EUR	EUR	EUR
Liabilities	1 984 205	2 088 757	1 726 387	1 830 282
Cash	(5 910 859)	(4 320 293)	(5 672 265)	(3 762 995)
Net debt	(3 926 654)	(2 231 536)	(3 945 878)	(1 932 713)
Shareholders' equity				
	11 356 804	11 440 139	11 281 634	11 402 523
Debt to equity ratio	17%	18%	15%	16%
Net debt to equity ratio	-35%	-20%	-35%	-17%

5. Key estimates and assumptions

The management of the Group makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, seldom equal the related actual results. The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below.

Recoverable amount and impairment of non-current assets

When the events and circumstances indicate a potential impairment, the Group performs impairment tests for items of fixed and intangible assets. According to these tests assets are written down to their recoverable amounts, if necessary. When carrying out impairment tests management uses various estimates for the cash flows arising from the use of the assets, sales, maintenance, and repairs of the assets, as well as in respect of the inflation and growth rates. If the situation changes in the future, either additional impairment could be recognised, or the previously recognised impairment could be partially or fully reversed. See also Note 2G.

At the reporting date there are no indications of impairment of fixed and intangible assets. The Group's cash flows from operating activities in the reporting year amount to EUR 1 155 thousand (2014/2015: EUR 2 575 thousand), and the Parent company's cash flows from operating activities in the reporting year amount to EUR 1 458 thousand (2014/2015: EUR 2 004 thousand). The Group will continue pursuing its strategy to develop competitive wireless data transmission products and solutions for new export markets, and maintain the current sound financial position and control over the production process with the aim to increase sales and profitability.

Useful lives of fixed assets

Management estimates the useful lives of individual fixed assets in proportion to the expected duration of use of the asset based on historical experience with similar fixed assets and future plans. Depreciation of fixed assets is charged to the profit or loss statement on a straight-line basis over the estimated useful lives of the individual assets. Depreciation of fixed assets is calculated over the shortest period – lease term or over the useful life. No depreciation is calculated for land. See also Note 2D.

Impairment of loans and receivables

The Group recognizes allowances for doubtful loans and receivables. In order to set unrecoverable amount of receivables, management estimates the basis of which is the historical experience are used. Allowances for doubtful debts are recognized based on an individual management assessment of recoverability of each receivable. See also Note 2K.

Net sales value of the inventory

The Group (Parent company) makes provisions in for slow-moving

inventories. Inventories net realizable value are recognized, reducing inventory costs for the total amount of provisions. See also Note 2 J.

Provisions and accruals

Provisions are recognized when the Group has a present legal or constructive obligation as a result of a past event and it is probable that an outflow of economic benefits will be required from the Group to settle the obligation, and the amount of obligation can be measured reasonably. If the Group foresees that the expenses required for recognizing an allowance will be partly or fully repaid, for example, within an insurance contract, the recovery of such expenses is recognized as a separate assets only when it is certain that such expenses will be recovered. Expenses connected with any provisions are recognized in the profit or loss statement less recovered amounts.

As at the reporting date, the following provisions and accruals were recognized:

- provisions for potential warranty expenses are recognized based on the management assessment of the risk of expected warranty repairs relating to the concluded contracts. The standard warranty period is one to five years depending from product;
- accrued liabilities for unused vacations are calculated in accordance with the number of vacation days unused as at 30 June 2016 and the average remuneration during the last six months of the reporting year.

Deferred tax asset

A deferred tax asset is recognised only to the extent that it is probable that future taxable profits will be available against which the asset can be utilised. Deferred tax amounts are reduced to the extent that it is no longer probable that the related tax benefit will be realised. See also Note 2N.

„SAF North America“ LLC is a 100% subsidiary of the Parent Company that operates in Denver, USA, that started active operations in the spring of 2012 and promotes the Group's products and services, performs marketing, market research, attraction of new clients and provides technical support in North America. Since 1 October 2014 the subsidiary is engaged in the distribution of goods in the North American region. As at 30 June 2016 the share capital of the subsidiary amounted to EUR 32 893 (30.06.2015.: EUR 32 893). 100% participation ensures absolute control of the subsidiary's assets and liabilities.

In August 2012, a joint of the Parent Company, „SAF Services“ LLC began operations in North America and the Company invested in it EUR 65 420 which was a 50% holding. The objective of establishing „SAF Services“

LLC was to provide local clients with services connected with the creation, long-term maintenance and management of data transmission networks. Joint control was established through equal voting rights and contractual arrangement. The test network set up by „SAF Services“ LLC using the equipment of SAF Tehnika AS was a success and the client recognised it to be compliant with the defined requirements but no cooperation agreement was signed and „SAF Services“ LLC was unable to generate any income from its investments. Consequently, any further development of this business in the USA was suspended and the founder, holder of 50% shares, „STREAMNET“ OU, discontinued cooperation. In April 2015 the Parent company became the sole owner of „SAF Services“ LLC. During 2014/2015 the Parent company's investment in „SAF Services“ LLC share capital was increased by EUR 132 and as at 30 June 2016 its gross value amounted to EUR 65 552 (30.06.2015.: EUR 65 552). 100% participation ensures absolute control of the subsidiary's assets and liabilities. As at 30 June 2016 „SAF Services“ LLC equity is negative, therefore the Parent company has made 100% provision for residual value impairment.

„Zinātnes parks“ SIA is a limited liability company founded in April 2015 by the leading companies of electronics, telecommunications and optics industry. The aim of Zinātnes parks is to commence creating infrastructure for the next decade research, innovations and knowledge economics in cooperation with the industry's association and competence centres. The Parent company has invested EUR 960 in its share capital and has become the owner of 24% of its shares.

In September 2012, the Parent company acquired the shares of "LEITC" SIA (Latvijas Elektronikas iekārtu testēšanas centrs) and became the owner of 16.75% shares through an investment of EUR 477. The mission of LEITC is to support research of electromagnetic compatibility (EMC) and educational projects that aim to expand the knowledge base, the range of equipment and to set up a group of specialists capable of addressing today's and future EMC issues.

"LEO Pētījumu centrs" is a limited liability company established in 2010 by the members of the Latvian Electrical Engineering and Electronic Industry Association (LETERA) and the company's objective is to attract EU funding for research and development of new products in the sphere of electronics and electrical engineering. The Company has invested EUR 711 in its share capital and has become the owner of 10% of its shares.

13. Deferred tax (assets) / liabilities

Deferred tax of the Group and Parent company has been calculated from the following temporary differences between assets and liabilities values for financial accounting and tax purposes:

	Recognized in profit or loss 2014/ 2015 EUR	Balance as at 30/06/2015 EUR	Recognized in profit or loss 2015/ 2016 EUR	Balance as at 30/06/2016 EUR
<i>Temporary difference on:</i>				
fixed asset depreciation and intangible asset amortisation	12 685	39 851	2 459	42 310
tax losses brought forward	13 154	-	-	-
accrued liabilities for unused vacations	(4 052)	(32 904)	(3 313)	(36 217)
adjustment of valuation of stock	(3 071)	(82 481)	2 983	(79 498)
provisions for guarantees	(536)	(2 732)	368	(2 364)
provision for returned goods	2 238	-	-	-
provisions on doubtful debts	51 951	(3 442)	3 442	-
Unrecognized temporary differences related to foreign trade receivables recoverability	(51 951)	3 442	(3 442)	-
Deferred tax (asset), net	20 418	(78 266)	2 497	(75 769)

Deferred income tax asset for the Group and Parent company is recognised to the extent that the realisation of the related tax benefit through the future taxable profits is probable. Management believes that there is reasonable probability that taxable profits in the next taxation periods will be sufficient to recover the recognized deferred tax asset in full during the taxation periods following the reporting year; this is also supported by the generation of taxable profits in the current year.

14. Share capital

As at 30 June 2016, the registered and paid-up share capital is EUR 4 158 252 (30.06.2015.: EUR 4 158 252) and consists of 2 970 180 ordinary bearer shares (30.06.2015.: 2 970 180 shares) with unlimited voting rights. Nominal value per share is EUR 1,4.

15. Payables, provisions and other liabilities

	Group		Parent company	
	30/06/2016	30/06/2015	30/06/2016	30/06/2015
	EUR	EUR	EUR	EUR
Trade accounts payable	803 088	704 679	538 584	609 623
Other accounts payable	181 312	14 763	181 312	14 763

18. Segment information and sales

(A) The Group's (Parent company's) operations are divided into two major structural units:

- SAF branded equipment designed and produced in-house - as one of the structural units containing CFIP and Freemile (Etherent/Hybrid/ superPDH systems), Integra (Integrated carrier-grade Ethernet microwave radio), Spectrum Compact (measurement tools for radio engineers).

CFIP - product line is represented by:

- a split mount (IDU+ODU) Phoenix hybrid radio system with Gigabit Ethernet and 20E1 interfaces;
- Lumina high capacity Full Outdoor all-in-one radio with Gigabit Ethernet traffic interface;
- CFIP-108 entry level radio system with Ethernet and 4xE1 interfaces - perfect for upgrade of E1 networks into packet data networks;
- Marathon FIDU low frequency low capacity system for industrial applications, energy companies and rural telecom use.

All CFIP radios are offered in most widely used frequency bands from 1.4GHz to 38 GHz, thus enabling the use of CFIP radios all across the globe.

Freemile 17/24, an all outdoor hybrid radio system to be used in 17 and 24 GHz unlicensed frequency bands and providing Ethernet/E1 interfaces for user traffic.

Integra – is a next generation radio system employing latest modem technology on the market as well as radio technology in an innovative packaging.

Spectrum Compact is the latest product line in SAF's portfolio, it is a measurement tool for field engineers for telecom, broadcasting and other industries using radio technologies. It comprises of a number of units covering several frequency bands and proving various functionality.

- Operations related to sales of products purchased from other suppliers, like antennas, cables, SAF renamed (OEMed) products and different accessories - as the second unit.

29. Related party transactions

Related parties represent both legal entities and private individuals related to the Group and Parent company in accordance with the following rules.

- A)** A person or a close member of that person's family is related to a reporting group entity if that person:
1. Has control or joint control over the reporting group entity;
 2. Has a significant influence over the reporting group entity; or
 3. Is a member of the key management personnel of the reporting group entity or of a parent of the reporting entity.
- B)** An entity is related to a reporting group entity if any of the following conditions applies:
1. The entity and the reporting group entity are members of the same group (which means that each parent, subsidiary and fellow subsidiary is related to the others);
 2. One entity is an associate or joint venture of the other entity (or an associate or joint venture of a member of a group of which the other entity is a member):

3. Both entities are joint ventures of the same third party;
4. One entity is a joint venture of a third entity and the other entity is an associate of the third entity;
5. The entity is a post-employment benefit plan for the benefit of employees of either the reporting group entity or an entity related to the reporting entity. If the reporting entity is itself such a plan, the sponsoring employers are also related to the reporting entity.
6. The entity is controlled, or jointly controlled by a person identified in (a).
7. A person identified in (a)(i) has significant influence over the entity or is a member of the key management personnel of the entity (or of a parent of the entity).

Related party transaction - A transfer of resources, services or obligations between a reporting group entity and a related party, regardless of whether a price is charged.

Parent company	Transactions for the year ended 30 June		Balance as at 30 June	
	2016 EUR	2015 EUR	2016 EUR	2015 EUR
